Air Handling Unit

25kW Rental AHU

ABOUT THE AIR HANDLER

Cool Energy's 25kW Air Handling Unit is a flexible single fan unit capable of offering 2,800m³/hr air flow. The unit requires a water source to the intergral coil and has quick release water connections, together with a 16amp single phase power connection.

The air handler is sited internally and has a removable air discharge plenum at the top. This can be removed to reveal a 500mm spigot to connect flexible ducting to provide air off the unit to specific and remote areas.

The unit is also supplied with a condensate pump and fan speed control to regulate the airflow.
