

Need Hot Water Fast With Simple Installation?

No Problem

Cool energy has a wide range of units (50kw-1,000kw) capable of offering **Emergency Boiler Rental** and **Temporary Hot Water** source.

Our range of units can offer the latest environmentally - friendly option of running on **Bio-Fuel** or, alternatively, **Standard Diesel Fuel**.

All equipment is supplied with internal or external fully - bunded fuel tanks to ensure you or your clients' site is safe from fuel spillage.

Additional Items:

Ancillaries with flexible water hoses are available for customers and water pumps are provided where necessary.

If you have planned maintenance on your building or a breakdown, then we can respond **FAST** to your specific sites' needs.

The Cool Energy boiler models are available in the following duty bands:

Capacity	Power	L (mm)	W (mm)	H (mm)	Weight (kg)
50kW	240/1/50 13 amp	2050	1250	1950	998
100kW	240/1/50 16 amp	2050	1250	1950	1140
250kW	240/1/50 16 amp	2898	1250	1950	1550
550kW	400/3/50 12 amp	4000	1250	2200	3000
750kW	400/3/50 22 amp	4250	1250	2200	3500
1000kW	400/3/50 30 amp	6000	2400	2400	9080
