

Cool Energy Go Dutch

 We are pleased to announce that due to the continued growth of our European rental business, we have now opened our 15th company location to service local customers.

The new depot, which is located 5 miles north of Eindhoven, will store a wide range of rental process cooling, HVAC equipment and also help provide a 24/7 service to the company's Benelux customers.

Russell Wilson (pictured right), who manages Cool Energy's business, commented. "For several years we have been supplying chillers and cooling equipment throughout the north of Europe to a wide range of industries.

The time was right to provide the correct level of investment and employment opportunities to create a truly local business in the Netherlands to support our existing clientele.

Throughout 2010 we have been able to establish a large depot location and employ staff with excellent technical backgrounds for the rental business with the correct refrigeration experience.

Cool Energy's New Depot

"It is pleasing to note that we are currently planning to double our workforce throughout 2011 to meet demand, following a successful 8 month opening period with our customers and trade partners," concluded Russell.

Cool Energy's Dutch customers can now contact the new office at the following location:

Cool Energy B.V.
5271 WX
Sint-Michielsgestel
Nederland

Tel: +31 (0) 88 258 2580
Fax: +31 (0) 88 258 2588
Web: www.nl.coolenergy.eu

Cool Energy also operate in the UK & Europe from London, Southampton, Bristol, Bradford, Blackpool, Birmingham, Glasgow and Southampton, and abroad in Dublin, Munich, Stuttgart, Dortmund, Berlin and Padova.

We specialise in the rental of air and water-cooled chillers, air blast coolers, air handling units, fan coils, split units and air conditioners for long or short periods.

Flexible water hoses, pipework connections, heat exchangers, power cable and power generators can also be provided as part of the package supplied, together with inclusive 24/7 maintenance where required.

Cool Energy can be contacted free of charge on **0800 840 4210** or via email on info@coolenergy.co.uk
