

# Food and Chocolate Temperature Control

## Heating and Cooling your Process

Do you need to replace an existing Temperature Control Unit or have a process that needs close temperature control?.

If the answer is yes, then Cool Energy can help by considering our range of British -built controllers capable of heating water or oil to your process up to 350 °C.

We are specialists at renting equipment to support food development for new products providing heating and cooling to jacketed vessels, stainless steel controllers and specialist diagnostic temperature controllers.

Interested or have a project to discuss

Call us free on **0800 840 4210** if you need a temporary unit to help you during a breakdown, or if you need a financial option versus buying a unit.

We are local and can visit you fast to provide expert advice and help.
