

## Cool Energy Hoses & Cables

Designed, built and maintained to the highest standards demanded by the UK rental market, Cool Energy hoses and cables are flexible and adaptable creating a solution for any application to suit your short or long term rental requirements.

Cool Energys hose and cable range come in a variety of sizes and fittings, please see table below for specifications.

Hoses Size & Fitting Type	Min- Max I.P.M.	Pressure Bar
1" Hose Camlock	30 - 90	6
2" Hose Camlock	120 - 360	6
2" Hose Bauer	120 - 360	6
2" Hose Flange	120 - 360	10
4" Hose Bauer	480 - 1,500	10
4" Hose Flange	480 - 1,500	10
6" Hose	1,500 - 3,400	10
8" Hose	2,000 - 6,000	10

As standard, Cool Energy's hire fleet carry a wide range of flexible hoses to meet the requirement of the applications, and the industries it serves.

Most hoses are wire reinforced providing flexibility and strength in a variety of situations.

All hoses are fitted with either Bauer, Camlock or Flanged connectors to allow rapid and secure connections on site, saving time and money.

Depending upon connection type our hoses can operate up to 10 bar and across a temperature range from -40°C to +110°C.
