

Cool Energy Gains F-Gas Registration

ICS Cool Energy Ltd has gained certification from Refcom, a Certification Body under the stationary equipment provisions of the Fluorinated Greenhouse Gases Regulations 2009. ICS Cool Energy is now listed on their website (pictured below) www.refcom.org.uk as an accredited refrigeration company.

ICS listing on Refcom website

Guilts handling of refrigerant qualifications, which is a requirement of Refcom to obtain the accreditation.

The ICS group of companies incorporates sales, rental, servicing and manufacturing, offering the ideal solution whatever your application. For more information please call us on free phone **0800 840 4210** or visit our website www.coolenergy.co.uk.

A legal requirement from **4th July 2009**, any business that installs, maintains or services stationary refrigeration, air conditioning and/or heat pump equipment containing or designed to contain **F-Gas refrigerant**, must now be accredited by Refcom.

What are the regulations for?

Fluorinated gases have a high **global warming effect** if released into the atmosphere. The objective of the Regulations is to contain, prevent and thereby reduce emissions of fluorinated greenhouse gases covered by the Kyoto Protocol, so as to help **combat climate change**.

Certification

ICS Cool Energy's certification covers all divisions within the group and each employed engineer has either **CITB safe handling of refrigeration** or **City and**
