Flexible Rental Solutions

Walk-In Cold Stores Installed Fast

Chilled & Frozen storage – inside and out

Cool Energy are refrigeration specialists providing a range of flexible Modular Chilled & Frozen Rooms to suit your specific requirements.

Why Flexibility?

Your business may grow or change. You may be starting a business or have a short-term lease and don't want to commit to a large capital outlay.

The Cool Energy cold stores can be designed around your particular space inside or outside your building and be small or large to meet your needs.

We can also reduce or increase it's size at any time in the future to suit your business.

The store is delivered and then constructed on site, which reduces the cost of delivery and allows for doorway delivery to simplify installation in small kitchen and production areas.

Safe and secure

Easy to clean and durable

Unlimited Combinations

We provide a wide range of wall thicknesses (60, 85, 105 and 150mm) to help provide the most energy efficient and insulated store for the temperature your products require.

You can choose to have windows in some of your panels if you prefer.

You have a choice of doors, which can open outward on either side, and we offer a sliding door option should you have space restrictions. Doors can be built to the side or front of the store.

Cold stores can be configured to have both a separate chilled area and frozen area.

Stores can measure a 3m maximum width with unlimited depth in increments of 1m.

Commercial Benefits

Cool Energy specialise in long or short term rentals to your particular needs.

We can visit your business and offer you a **no obligation free quotation** and a price for weekly hire, which is flexible and the longer you hire, the better the price to you.

We hire from 4 weeks all the way to 5 years and can offer a purchase option for you after your contract has expired.

Your weekly rental payment will not change throughout the duration of your rental.

All maintenance of the units is **included** within your rental price.

Rental is tax efficient - talk to your financial expert as your rental costs could be used to reduce your corporation tax payments.

Modular Walk-in Coldstores

Production, Packing and Storage

We can help you to maintain the correct temperature.

Help when you need it

When you are faced with your products, packaged stock or personnel overheating you can do something about it – call Cool Energy who are refrigeration and air movement rental specialists.

Experience counts

We're experts in providing cooling equipment and air distribution in production areas, ingredient stores, packing areas, storage units and where there are hot spots involving personnel such as canteens, restaurants, kitchens and production lines.

Our job is to provide you with a solution to meet the demands of your business and have wide experience in managing these applications.

Fast Response

We can visit you or your client on either the same or next day; our engineers are nationwide and experienced in recommending the most resilient and economic answer to your shortfall.

We can then provide you with express delivery, installation and commissioning service to meet the demands of your particular site and it's timetable.

Our products can be sited in the following manner:

- Placed in existing racking
- Secured to the ceiling
- Placed internally with temporary air distribution
- Free standing in areas with or without stands
- Sited externally and feeding existing air distribution
- Sited externally with ducting and air distribution

Our Rental Range

- Packaged chillers from 1kW – 1,000kW units
- Air handling units capable of +25 °C to – 10 °C air off temperature
- Free standing industrial fans
- Fan coils for offices and canteen cooling
- Air conditioning units for offices and personnel areas
- Industrial Evaporative coolers
- Dehumidifiers to help regulate the air moisture content

Typical Application

- Tempering of meat products from frozen to chilled
- Converting an ambient store to a chilled area
- Spot cooling single pallets and racks
- Cooling a conveyor belt of products
- Tablet storage to +/- 1 °C temperature tolerances
- Build temporary chill store for additional space on site

All of this is supplied with 24/7 maintenance throughout the rental period.

Call us free on **0800 840 4210** for an emergency visit or to order equipment fast.
